OPA Series:

VINTAGE ACORN POST TOP!

The OPA from Williams Outdoor is a classically designed acorn post top luminaire. Engineered for versatility, choose from various diffuser options and distribution packages to suit numerous outdoor applications. Traditional styling makes the OPA an attractive addition to historic areas, revitalized city centers, and parks.

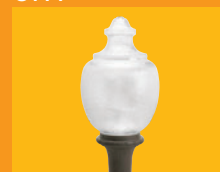

FEATURES:

- Optional spun aluminum top.
- Choice of clear, textured U.V. stabilized acrylic or impact-resistant polycarbonate diffuser.
- Glass refractor or stack reflector for varied distribution options.
- Brass finial option for a decorative touch.

SPECIFICATIONS:

- HOUSING – Cast aluminum base with clear, textured U.V. stabilized acrylic or impact-resistant polycarbonate diffuser. Gasketed for weathertight performance.
- ELECTRICAL PACKAGE – PSMH: Rated -20°F minimum starting temperature. HPS: Rated -40°F minimum starting temperature.
- DIFFUSER – Choice of molded U.V. stabilized acrylic or molded impact-resistant polycarbonate.
- DISTRIBUTION – Refractor: Prismatic glass refractor in Type III or Type V distribution. Stack Reflector: Spun aluminum Type V stack reflector with a specular finish.
- MOUNTING POINT – Post top mounting on 3" or 4" O.D. tenon or pole top. Secured with stainless steel set screws. See Williams' Poles or Pole Top Assemblies for details.
- FINISH OPTIONS – Super durable polyester powder coat meets and exceeds AAMA 2604 specifications for outdoor durability.
- LABELS – cCSAus certified as luminaire suitable for wet location.
- This fixture is proudly made in the USA.
