

H.E. Williams, Inc.

OCA Series:

ANGLED HOOD DECORATIVE LUMINAIRES!

MORE VARIETY ADDED TO WILLIAMS OUTDOOR DECORATIVE LINE!

The geometric features of the OCA Series include an angled hood and cone-shaped ballast housing combined with one of three optical packages: an opal bullet-style diffuser, clear drop acrylic lens, or bullet-style diffuser with exterior rings. Additionally, the OCA20W and OCA24W feature a luminous window to create a subtle uplight effect.

Any combination of features you select within the OCA Series will provide elements of design and visual interest, enhancing a variety of exterior applications.

Finished with super durable powder coating on a cast aluminum housing and spun aluminum hood, the OCA Series will withstand tough weather conditions for years.

For ease of installation, our exclusive self-leveling twist-lock fitter is standard on all Williams Outdoor Decorative Luminaires.
