

H.E. Williams, Inc.

## OPF Series:

### **NEW! CONTEMPORARY POST TOP!**

#### **NEW! CAGED POST TOP LUMINAIRE WITH CONCENTRIC HOODS FROM WILLIAMS OUTDOOR!**

A contemporary post top fixture designed to provide both up and downlight, the OPF adds interest to shopping areas, streetscapes, walkways, and parks. The cage-style lens guard features a twist-lock design to allow tool-less lamp access and easy on-site maintenance.

- HOUSING – One-piece cast aluminum ballast housing, .188 minimum wall thickness.
- REFRACTOR / DIFFUSER – Clear prismatic borosilicate glass refractor enclosed in a one-piece, frosted, U.V. stabilized acrylic diffuser, secured inside the lens guard and sealed with a gasket.
- LENS GUARD – One-piece solid aluminum cage with twist-lock feature providing tool-less lamp access is secured with two thumb screws to provide tool-less lamp access.
- HOOD – Two spun aluminum reflector hoods, minimum .080" wall thickness. Underside finish is highly reflective non-glare white polyester powder coat.
- MOUNTING – Post top mounting on 2-7/8" O.D. tenon. Secured with six stainless steel set screws. See Decorative Poles or Williams Outdoor Information sections.
- This fixture is proudly made in the USA.
