

# INSTALLATION INSTRUCTIONS FOR USE WITH SERIES: 73, SM73, AND 84

**\*\* Installation of these products should only be performed by a qualified electrician. \*\***

1. Mount the fixture utilizing hanging/mounting holes (refer to 73 Series specification sheet for backview punching).
2. Locate the primary supply wire and ground wire and make electrical connections within local codes.
3. Attach either the wireway or reflector section using (2) 1/4" x #8 screws (supplied).

**Note:** Refer to individual product specification sheets for further information
