Semi-specular reflectors are available in a variety of finishes and designed for optimized efficiency. Self-flanged trim is standard on all reflectors providing a clean, finished appearance.

Reflectors may be ordered with recessed lens, wall wash, or decorative luminous glass.

Slope Ceiling Adapter (SCA) Available in 5° Increments from 10° to 30°

Decorative luminous glass is offered in various shapes and sizes. Glass is tempered, polished, and frosted to create an attractive luminous appearance. The open glass design provides architectural enhancement without sacrificing fixture illumination.

Available glass colors are Clear Soda Lime, Cobalt Blue, Ruby Red, Emerald Green, and a variety of custom colors.
